

POINT 501 FIX EXPRESS

Extremely fast and strong adhesive with activator

POINT 501 FIX EXPRESS – Ultra-fast multi-purpose adhesive consisting of a high viscosity cyanoacrylate adhesive and an aerosol activator, with a strong adhesion. Suitable for vertical surfaces, adheres immediately. Bonds a variety of materials including acetic and some porous surfaces where fast bond time is required. Suitable for MDF, wood, chipboard, rubber, most plastics, leather and other common materials.

Advantages

- Immediate and strong bonding.
- Simple and fast application.
- Bonds porous and non-porous materials.
- Bonds rubber and leather.
- Transparent.
- Working temp. from -10 °C.

Perfect adhesion with:

- MDF
- Wood
- OSB
- Concrete
- Plaster
- Stone
- Ceramics
- Hard PVC
- Metal
- Leather
- Rubber

Areas of application

Glue is intended for gluing many building and finishing elements in cases where very fast adhesion is necessary. It is suitable for the bonding of a very wide range of materials, including acid surfaces and some porous ones, where rapid bonding time is required. Suitable for MDF, wood, chip wood, rubber, most plastics, leather and other common substrates. Especially suitable for the applications where cure speed needs to be accelerated.

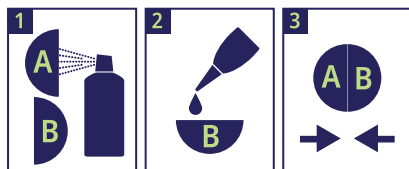

TECHNICAL DATA SHEET

Technical specifications

Indicator	Units	Certifications	Value
Colour			Transparent
Basis			Ethyl Cyanoacrylate
Density	g/cm ³	ASTM D1875	1,06
Viscosity	Cps	ASTM D1084	1200-1800
Application temperature	°C		-10 °C ... +35 °C
Temperature resistance after curing	°C		-20 °C ... +70 °C

Directions of Use

The bases must be smooth, clean and dry. Apply glue on one of the elements, spray the aerosol on the other element. Connect and squeeze tightly until its bonds. Bonds in a few seconds.

Storage conditions

Store upright in a dry place at +5 °C to +25 °C. Expiry date - 18 months from date of manufacture, subject to storage regulations. Frost resistance during transportation -15 °C.

Packaging

100 ml aerosol can +25 gr. glue in a plastic bottle, blister, 12 pcs. per box.
400 ml aerosol can + 125 gr. glue in a plastic bottle, 24 pcs. per box.

Health & Safety

Product Safety Data Sheet must be read and understood before use. These are available on request. Avoid exposure to strong light and heat sources. Cyanoacrylates can bond to skin within seconds. Will cure in container if not closed properly! Activator is flammable. Do not throw into fire. Activator can is under pressure. Do not crush or drill.

Waste management

Completely empty the packaging and dispose of properly.
